Counselor Competencies and Ethics

The West Babylon school counselors will utilize the ASCA School Counselor Competencies and Standards for School Counselors (2010) as an outline of the knowledge, abilities, skills and attitudes necessary to plan, organize, implement and evaluate their comprehensive, developmental, results-based school counseling programs.

School Counselor Competencies

Ethical Standards
https://www.schoolcounselor.org/asca/media/asca/Ethics/EthicalStandards2016.pdf

Professional Development:

The West Babylon school counselors understand the need to get updated information in order to best assist students. Counselors will attend meetings, access listservs, review materials on relevant topics and get updated information as well as exchange ideas with counselors in order to stay relevant.

West Babylon School Counseling Department Management System

The management system incorporates organizational processes and tools to ensure that the West Babylon’s school counseling program is organized, concrete, clearly delineated, and reflective of the school’s needs.

Program implementation - Each counseling department level in collaboration with the director of guidance, and building principals will decide how students will be assigned to counselors to ensure that each student has access to the counseling program. Counselors will set up their schedules to allocate time to:

- deliver guidance lessons,
- provide individual and group student planning (with data analysis).
- provide responsive services (direct and indirect), and
- managing system support.

During the school year, counselors should monitor their time and determine the percentage of time spent in each component of the school counseling program.

Use of Time - District counselors recognize the value of delivery of services to students. It is recommended that school counselors spend 80% of their time in Delivery of Services to Students. The remaining time is spent for Foundation, Management & Accountability.
