

Turn Markers

Into Energy!

September 2018

Dear Parents/Guardians,

We are excited to tell you about a very special program Santapogue's Student Council is coordinating at our school in conjunction with Crayola. It's called **Crayola ColorCycle** – an amazing new program devised to turn used markers into energy!

All around Santapogue's students and teachers will be collecting used markers that are ready to be discarded. The markers will be sent to a facility where they will be converted into clean fuel. This fuel can be used to power vehicles, heat homes, cook meals and more!

Please send your kids in with any used markers you may have around the house – even non-Crayola brands. Drop-off boxes will be located around the school for your child to deposit the used markers. We will collect throughout the school year.

Thank you in advance for participating! With the help of parents like you across the country, the Crayola ColorCycle program can keep tons of plastic out of landfills each year.

Remember, don't throw out that used marker—*ColorCycle it!*

Sincerely,
Santapogue Student Council &
Mrs. Saqqinano
Student Council Advisor
