LEARNING IS 'SNOW' MUCH FUN!

Students in Ms. Bergmann's Reading classes are working diligently on their reading skills. Check out some of their awesome work!

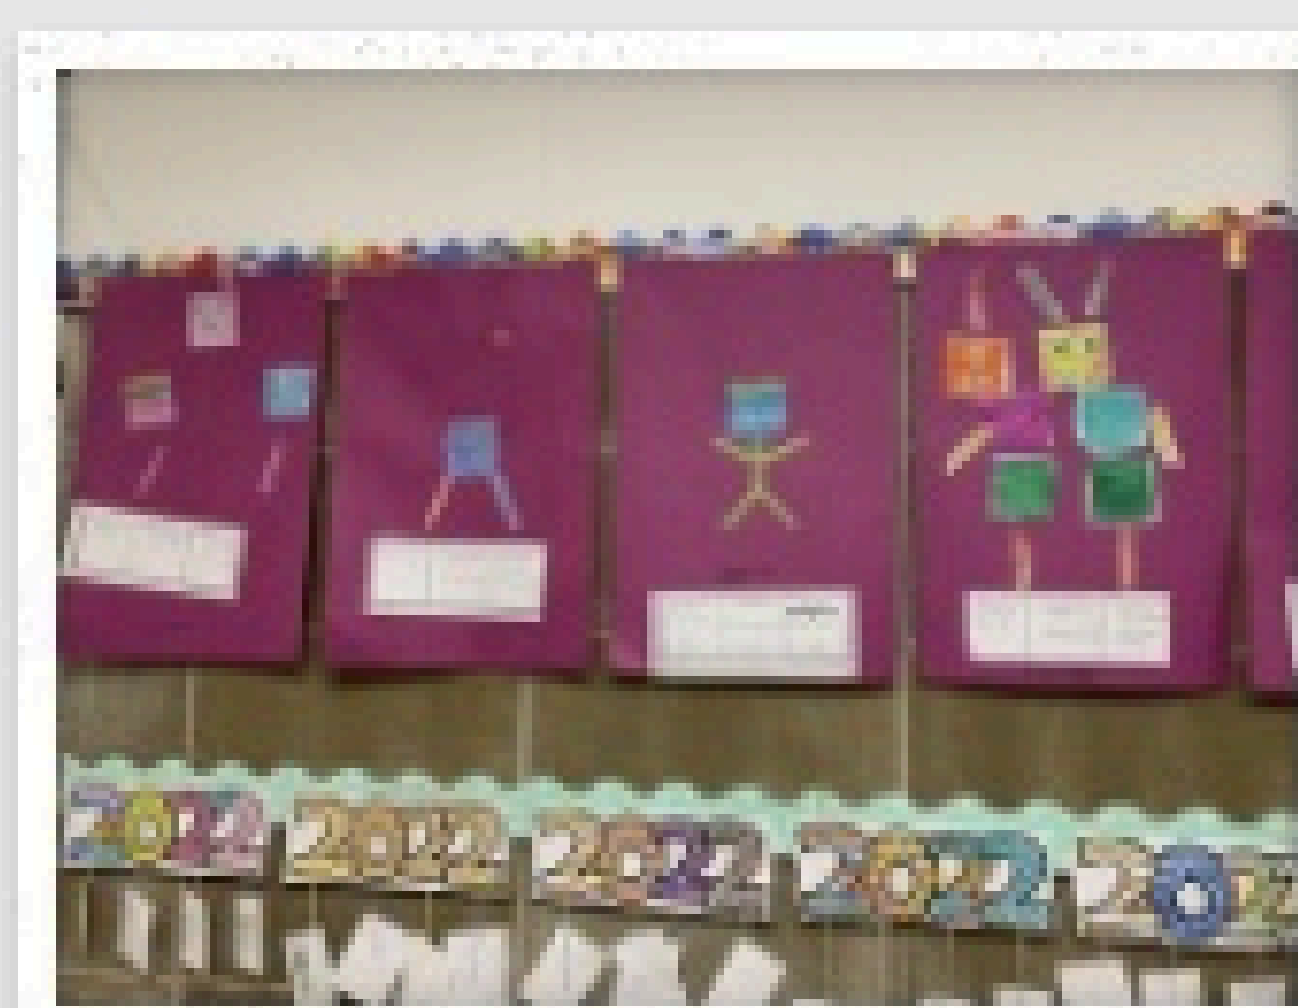

K-2 MORNING ENRICHMENT STEM PROGRAM

Students in Mrs. Shaw's Morning Enrichment STEM program completed a fun hands-on activity based on the book *The Three Little Pigs*. Students built houses out of straws, toothpicks, and building blocks to see which one was the strongest!

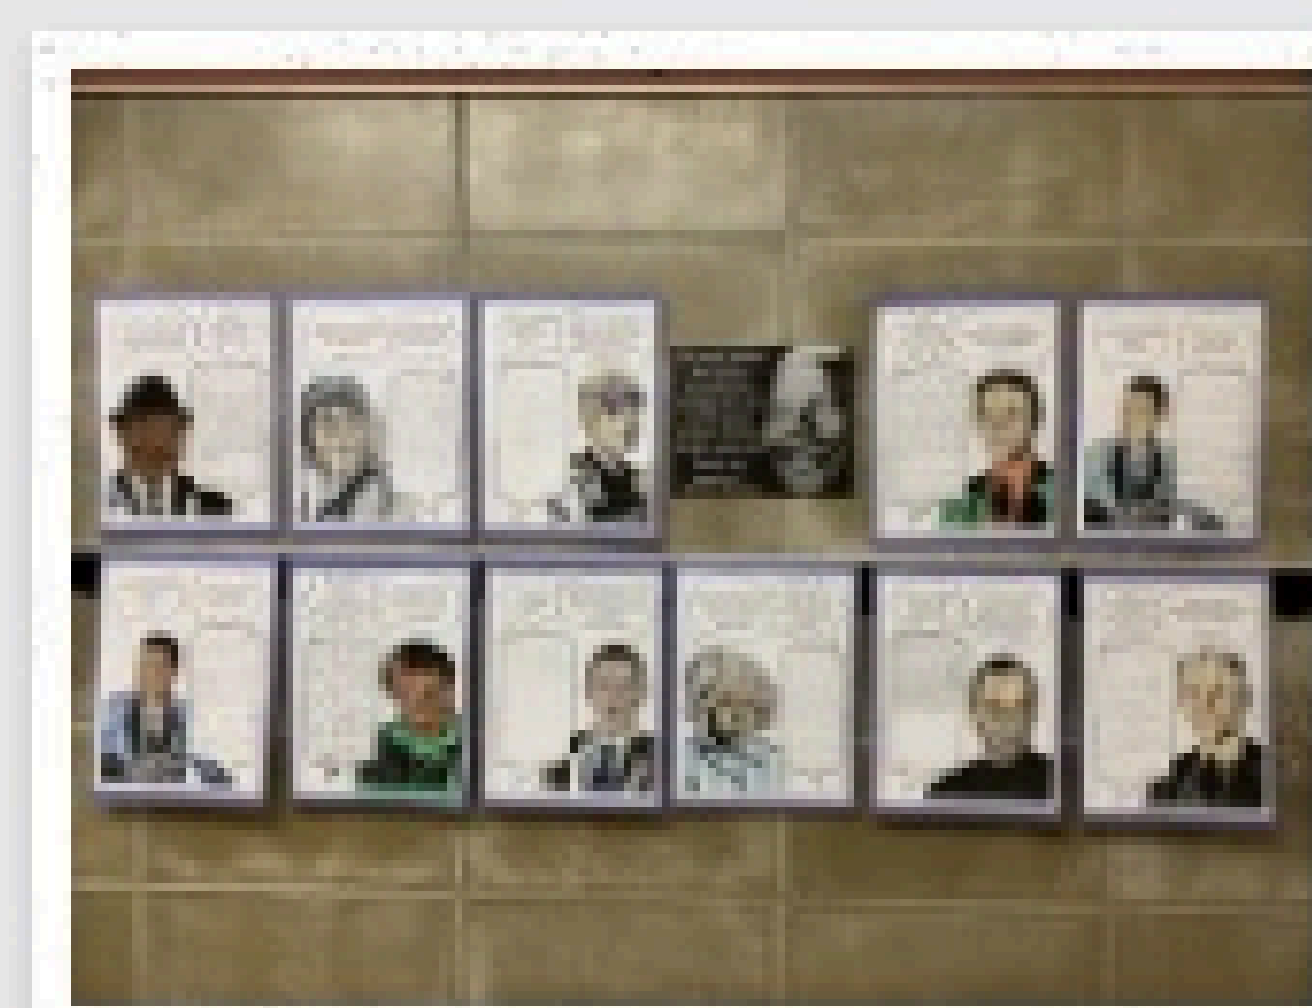

4TH & 5TH GRADE ENRICHMENT

Fourth and fifth graders in Mrs. McNeely's Enrichment class became architects and constructed igloos for a STEM challenge. They worked together to accomplish their goal!

PLACE VALUE CREATURES

Students in Mrs. Graziosa's and Mrs. Russo's second grade classes are working on place value, and created Place Value Creatures using hundreds, tens and ones!

GROWTH MINDSET & GRIT

Mrs. McNeely's fourth and fifth grade Enrichment students are focusing on Growth Mindset and having grit. Students read quotes from successful, inspirational people who overcame obstacles and failures. They then answered questions that prompted students to think about their own grit. Students interpreted quotes by Martin Luther King Jr, Mother Theresa, Barack Obama, Maya Angelou, and more.
