Investments

Scope: This investment policy applies to all monies and other financial resources available for investment on behalf of the Board of Education.

Objectives: The primary objectives of investment activities are, in priority order:
> to conform with all applicable federal, state and other legal requirements (legal);
> to adequately safeguard principal (safety);
> to provide sufficient liquidity to meet all operating requirements (liquidity);
> to obtain a reasonable rate of return (yield).

Delegation of Authority: Under the direction of the Superintendent of Schools, the [Assistant Superintendent for Finance] Executive Director for Finance and Operations shall have primary responsibility for administering this policy. He/She shall establish written procedures for the operation of the investment program consistent with these investment guidelines. Such procedures shall include an adequate internal control structure to provide a satisfactory level of accountability based on a database or records incorporating description and amounts of investments, transaction dates, and other relevant information so as to provide guidance for those entrusted to carry out investment procedures.

Prudence: All participants in the investment process shall act responsibly as custodians of the public trust and shall avoid any transaction that might impair public confidence in the district. Investments shall be made with judgment and care, seeking competitive quotations, under circumstances then prevailing, in which persons of prudence, discretion and intelligence exercise the management of their own affairs, not for speculation, but for investment, considering the safety of the principal as well as the probable income to be derived.

All participants involved in the investment process shall refrain from personal business activity that should conflict with proper execution of the investment program, or which could impair their ability to make impartial investment decisions.

Diversification: When possible, the district shall diversify its deposits and investments by financial institution, by investment instrument, and by maturity scheduling.

Internal Controls: All monies collected by any officer or employee of the district shall be transferred to the District Treasurer within two days of their receipt, or within the time period specified in law, whichever is shorter.

The [Assistant Superintendent for Finance] Executive Director for Finance and Operations is responsible for establishing and maintaining an internal control structure to provide reasonable, but not absolute, assurance that deposits and investments are safeguarded against loss from unauthorized use or disposition, that transactions are executed in accordance with management's authorization and recorded properly, and are managed in compliance with applicable laws and regulations.
Designation of Depositories: The banks and trust companies authorized for the deposit of monies shall be designated annually at the reorganization meeting of the Board of Education and thereafter as circumstances require. Such authorization shall specify the limits of deposits at each banking institution.

Collateralizing of Deposits: In accordance with the provisions of General Municipal Law, § 10, all deposits of the district, including certificates of deposit and special time deposits, in excess of the amount insured under the provisions of the Federal Deposit Insurance Act shall be secured by a pledge of "eligible securities" with an aggregate "market value" as provided by General Municipal Law, § 10, at least equal to the aggregate amount of deposits from obligations insured or fully insured or guaranteed as to the payment of principal and interest, by the United States of America, or an agency thereof. Such eligible securities may include U. S. Treasury Strips at the appropriate percent of market value.

All securities either pledged as collateral on an investment or purchased through a repurchase agreement must additionally be approved by the District Treasurer who shall maintain said list.

Safekeeping and Collateralization: Eligible securities used for collateralizing deposits shall be held by a third party bank or trust company subject to security and custodial agreements.

The security agreement shall provide that eligible securities are being pledged to secure district deposits together with agreed upon interest, if any, and any costs or expenses arising out of the collection of such deposits upon default. It shall also provide the conditions under which the securities may be sold, presented for payment, substituted or released and the events of default which will enable the district to exercise its rights against the pledged securities. In the event that the securities are not registered or inscribed in the name of the [Assistant Superintendent for Finance] Executive Director for Finance and Operations, such securities shall be delivered in a form suitable for transfer or with an assignment in blank to the district or its custodial bank.

The custodial agreement shall provide that securities held by the bank or trust company, or agent of and custodian for the district, will be kept separate and apart from the general assets of the custodial bank or trust company and will not, in any circumstances, be commingled with or become part of the backing for any other deposit or other liabilities. The agreement should also describe that the custodian shall confirm the receipt, substitution or release of the securities. The agreement shall provide for the frequency of revaluation of eligible securities and for the substitution of securities when a change in the rating of a security may cause ineligibility. Such agreement shall include all provisions necessary to provide the district a perfected interest in the securities.

Permitted Investments: As authorized by General Municipal Law, §11, the District Treasurer shall invest monies not required for immediate expenditure for terms not to exceed its projected cash flow needs in the following types of investments:

- Special time deposit accounts
- Certificates of deposit
- Obligations of the United States of America
- Obligations of or guaranteed by agencies of the United States of America where the payment of principal and interest are guaranteed by the United States of America.
All investment obligations shall be payable or redeemable at the option of the district within such times as the proceeds will be needed to meet expenditures for purposes for which monies were provided and, in the case of obligations purchased with the proceeds of bonds or notes, shall be payable or redeemable at the option of the [Assistant Superintendent for Finance] Executive Director for Finance and Operations within two years of the date of purchase.

**Authorized Financial Institutions and Dealers:** The district shall maintain a list of financial institutions and dealers approved for investment purposes and establish appropriate limits to the amount of investments which can be made with each financial institution or dealer. All financial institutions with which the district conducts business must be credit worthy. Banks shall provide their most recent financial statement or Consolidated Report of Condition [Call Report] at the request of the district. Security dealers not affiliated with a bank shall be required to be classified as reporting dealers affiliated with the New York Federal Reserve Bank, as primary dealers. The district's [Assistant Superintendent for Finance] Executive Director for Finance and Operations is responsible for evaluating the financial position and maintaining a listing of proposed depositories, trading partners and custodians. Such listing shall be evaluated at least annually.

**Purchase of Investments:** The District Treasurer is authorized to contract for the purchase of investments:

1] Directly, including through a repurchase agreement, from an authorized trading partner; or

2] By participation in a cooperative investment program with another authorized governmental entity pursuant to Article 5G of the General Municipal Law where such program meets all the requirements set forth in the Office of the State Comptroller Opinion Number 88-46, and the specific program has been authorized by the Board of Education.

All purchased obligations, unless registered or inscribed in the name of the district, shall be purchased through, delivered to, and held in the custody of a bank or trust company chartered in the State of New York. Such obligations shall be purchased, sold or presented for redemption or payment by such bank or trust company in obligations only in accordance with prior written authorization from the officer authorized to make the investment. All such transactions shall be confirmed in writing to the district by the bank or trust company. Any obligation held in the custody of a bank or trust company shall be held pursuant to a written custodial agreement as described in General Municipal Law, § 10.

The custodial agreement shall provide that securities held by the bank or trust company as agent of and custodian for the district, will be kept separate and apart from the general assets of the custodial bank or trust company and will not, in any circumstances, be commingled with or become part of the backing for any other deposit or other liabilities. The agreement shall describe how the custodian shall confirm the receipt and release of the securities. Such agreement shall include all provisions necessary to provide the district a perfected interest in the securities.

**Repurchase Agreements:** Repurchase agreements are authorized subject to the following restrictions:
> The purchased securities shall be held by a third party custodian other than the trading partner;
> All repurchase agreements must be entered into, subject to a Master Repurchase Agreement;
> Trading partners are limited to banks or trust companies authorized to do business in New York State and primary reporting dealers;
> Obligations shall be limited to obligations of the United States of America and obligations guaranteed by agencies of the United States of America;
> No substitution of securities will be allowed during the term of the agreement.

**Annual Review:** This policy shall be reviewed annually by the Board of Education and reaffirmed at the annual reorganization meeting.

School District Purchasing

Purchasing is an important function in support of the education of the students of this district. The purchasing role is to provide the necessary equipment, supplies and services in the right quantity and quality, in the right place, at the time needed, at the lowest cost to the district.

The purchasing process should be performed within the budgetary appropriations by the Board appointed purchasing agent, following existing laws, regulations and Board of Education procedures.
